Highlights

Fast response time
Standard incandescent bulbs actually take a little time to light up. Vision LED lights turn on instantly. That means, when you brake, the vehicle behind you can react sooner. The instant-on response provided by Vision LED lights can reduce braking distance by up to 20 ft. at a speed of 75 mph.

Long-lasting LEDs

Replace your standard car lights with long-lasting Philips Vision LED lights. They're a direct replacement for incandescent bulbs, and are resistant to extreme heat and high vibrations. These lights have been designed to outlast your car!

Street-legal LEDs

Philips has tested Vision LEDs in a variety of vehicles to meet the DOT regulations and SAE standards. Visit our car database to check the list of cars appropriate to use the product.
